THE FOUR DECADE SALE

It is a rare thing indeed, for an organization to sponsor forty consecutive sales. To do this, it takes families of stockmen to carry on through several generations. It takes a breed of cattle that will stand the test of time and to carry on through many more generations. It takes a sale that offers an equal opportunity for buyers and sellers to dispose of and procure cattle at prices satisfactory to both buyer and seller . . . Over the years it is traditional that the Auglaize County Shorthorn Breerers assemble a group of quality Shorthorn cattle for sale. This year will be no exception and in behalf of the organization and the consignors we ask that you attend.

You and your friends are cordially invited and we will look forward to seeing you sale day.

You'll like his rich red color and his beefy conformation. We feel that the buyer of this calf will be pleased with his doing ability. And if anyone is in need of a bull ready for service here is a bull that can fill the bill. On the basis of the conformation of this calf and his sire and dam we feel confident in saying that he should sire calves of very desirable type.

A Special Message to Commercial Cattle Breeders

The figures shown in this table are important **TO YOU**. The table tells in pounds and dollars the superiority of Shorthorns in the 1955 Virginia Feeder Calf Sales. No explanation is necessary because the figures speak for themselves. Note that in every single category the Shorthorns outweighed the overall average of the other breeds and when you consider that Shorthorns have been figured into the all-breed summary, the figures show a tremendous advantage for Shorthorns. Study this table carefully.

MISS WONDER 5th—This heifer is out of one of the good cows that we purchased at the Jack Smith dispersal sale in Michigan. This family has done us the best of any cow family at the farm. We are always proud of the calves. On the top side of the pedigree, the sire Willow Lee Wonder 16th, the champion bull at the 1954 Auglaize County show and sale and sold to Milton Wilson of Presque Isle, Maine and it is reported that the calves this bull is siring in Maine are quite outstanding. STANDARD GUARANTEE

—of—

American Shorthorn Breeders' Association

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion test within 30 days prior to the sale, or will have Certificates of Bangs Calthood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
